

Dog Training in English

If you share your life with dogs, you quickly realize how much they enrich it and in how many aspects we feel better. We love to share our daily life with them, enjoy their company and support and their warmth and companionship.

However, dog language is not natural to us and thus a permanent source of misunderstandings both ways. Our training bases on understanding and translating your dog's body language, providing you with new training ideas and body language skills that will enable you to improve the relationship with your dog.

A happy dog is a dog that knows its place, knows the rules and has sufficient exercise both for body and brain. We provide all kind of training groups to satisfy those needs.

We train at your place, in your home environment, on our own training premises which include a huge indoor training ground or anywhere you wish. We accompany you when you look for a new dog, both to shelters and breeders and support you with our broad knowledge.

We offer personal training at 60 € per hour, group training (punch card for 10 lessons at 200 €) visits at your home (2 hrs – 120 € plus travel expenses) and seminars or special events. If you would like to share a lesson with a friend and his dog – no problem. Name it – we provide it!

Just call us to hear more about our quiet, individual and respectful dog training.
